Mary Lou Cole

It is not how long that one lives, but how one spends his life while living among his fellow men that contributes to the eternal life of the departed and to the lives of mankind whom he has left behind here on earth.

Mary Lou Cole loved her friends and pupils and always shared her cheerful personality and her keen intellect unsparingly with whomever she came in contact. She will always remain an inspiration to every one who knew her, as he or she recalls the tremendous effort which Mary Lou put forth in trying to make Berner High School and the community of Massapequa a better place in which to live.

OUCH

FACULTY

"We in this country, in this generation, are by destiny rather than choice - the watchmen on the walk of world freedom." These words were to have been spoken by President John F. Kennedy in Dallas, Texas in 1963.

Such utterances come to mind as we celebrate the Bicentennial of our nation. Our magnificent past provides us with guides to present actions and future aspirations.

In this year, the year of Berner High School's Class of 1976, let us be fully aware of our great history, our present opportunity, and our manifest destiny.

Sincerely,
Donald Woodworth

After awhile you learn
the subtle difference between
holding a hand
and chaining a soul
that love learn a soul
and company doesn't mean learning

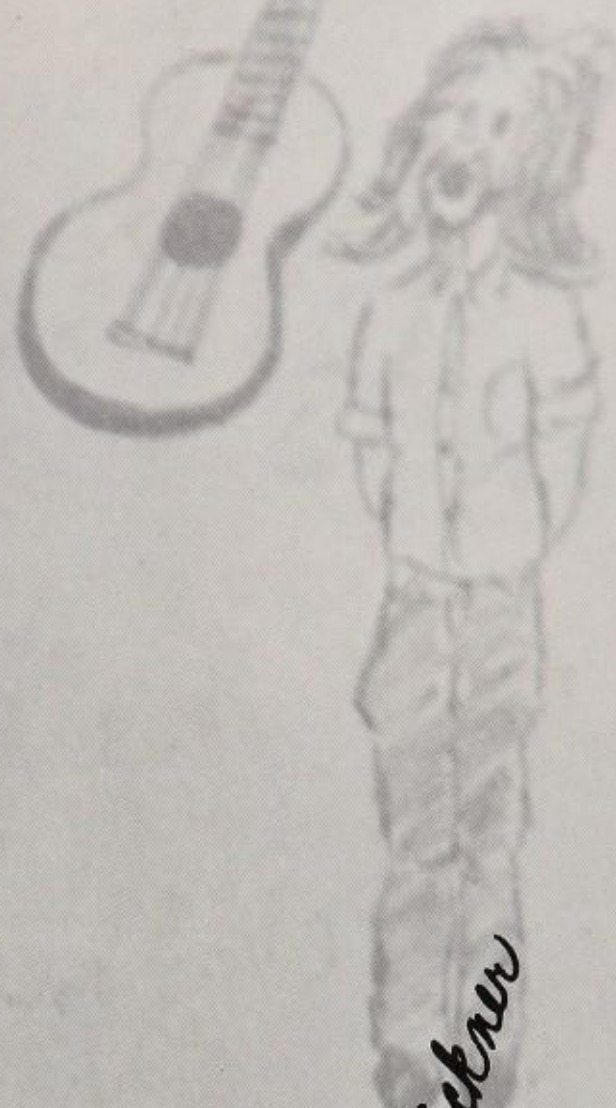

And you learn that kisses
aren't contracts and
presents aren't promises
and you begin to
accept your defeats
with your head up and your
not the grace of a man
and the grief of a woman

... would learn
because all your roads on today
too tomorrow ground is
and uncertain for plans
in mid-flight.

After awhile you learn
that even sunshine burns
if you ask too much
and plant your own garden
instead of waiting for someone
to bring you flowers.

And you learn
that you really can endure
and that you really are strong
and you learn
with every Good Bye
you learn....

Farewell to My Childhood

God, it's been fun
But good times always end
Freshman grown to senior
Like a supple tree must bend.
Forward I must go
To build a better me.
Sacrifice the old for new
Flexing like that tree.
But deep within my heart I know
That memories cannot die
Content with thoughts of all the years
I'll say my last good-bye.

- F: It's not time to make a change, just relax take it easy, you're still young that's your fault there's so much you have to know. Find a girl settle down, if you want to you can marry, look at me, I am old but I am happy. I was once like you are now and I know it's not easy to be calm when you've found something going on, but take your time, think a lot, why think of everything you've got, for you will still be here tomorrow but your dreams may not.
- S: How can I try to explain, 'cause when I do he turns away again, it's always been the same old story. From the moment I could talk I was ordered to listen, now there's a way and I know that I have to go. Away, I know, I have to go.
- F: It's not time to make a change, just sit down take it slowly, you're still young that's your fault, there's so much you have to go through. Find a girl, settle down if you want you can marry, look at me I am old but I am happy.
- S: All the times that I've cried keeping all the things inside it's hard, but it's harder to ignore it. If they were right I'd agree. But it's them they know not me now there's a way, and I know that I have to go away, I know I have to go.

Why Spectrum?

The question of whether or not there is a need for an additional student newspaper in our school district has been raised in both high schools. We, the staff of Spectrum, feel that it is our obligation to state our position as an alternate news service.

Both Berner and Massapequa High schools have student newspapers dealing mainly with the reporting of school activities. Each may be adequate in the eyes of many students and we of Spectrum have no desire to compete with these publications. In fact, our basic goals are the same - to provide students with knowledge of school and community activities through objective and well-informed reporting. However, we feel that because we are a completely student run and financed newspaper we have fewer restrictions on what we say and how we say it. We welcome all well-written articles of pertinent and informative content. In addition, we would like to print creative works, such as short stories, poetry, drawings and photography. The wealth of talent in the student bodies of both schools is infinite and virtually undeveloped. Student criticism of existing conditions in the school and community are often written off as naive or absurd. Hopefully, our newspaper will be able to present problems that students encounter and offer possible solutions.

Another aspect of Spectrum is necessary to consider. In this school district, competition between Berner and Massapequa encompasses all fields of interest, from academic achievement to sports and music. Contact between students of both schools is minimal and few organizations exist consisting of co-operating students of both schools. Each school is a separate, independent entity. Most functions in one school are not publicized in the others; thus students are not aware of what the other school has to offer in recreational or social activities. Our staff is comprised of students of both schools and we hope to provide information of interest affecting all students of this district.

Spectrum has one obligation -- to you the student of Massapequa and Berner. We would like to provide students with an outlet for expressing a spectrum of viewpoints and creativity. We want to work for expressing a spectrum of viewpoints and creativity. We want to work for and with you. If you are interested in writing or in helping with the technical details of Spectrum please come to our Sunday night meetings by contacting a member of our staff. In order for Spectrum to exist we need you and your support.

Mr. Brian Flood - Yearbook Advisor

Wisanda '76 was an experience which began a little more than a year ago. Many have been involved in this undertaking while a select few have been devoted. Wisanda's assistant editors DONN HIRSCHMANN and STEVE CARDINO (alias Barry Manilow) were the foundations of this book.

Donn was unquestionably the only one of us who never really permitted it all to get to him. His smile, sense of humor and wonderfully optimistic viewpoint, even at the worst of times (like when we were "meeting" that last deadline or when the file cabinet jammed) were my best sources of encouragement. He was always the one to turn to when you needed that little boost - that little bit of understanding. You have a definite potential in the field of logo selection.

To Steve, I can only say I'm sorry we only met this past year. It is a shame not to have known such a creative, reliable and imaginative person throughout high school. You never seemed to complain about the demands of the yearbook, but rather were more concerned with creating a masterpiece of a publication. I hope you are not too disillusioned with the final outcome. If for nothing else, I can thank Wisanda for introducing us and permitting a solid friendship to be nurtured between us. Contrary to popular advice, you do not "crop" with your feet.

BOB LEVIN was the spice at many of our meetings (especially those early Sunday morning ones and those often rowdy Friday afternoon "meetings"). His unique views on duck hunting and women's lib (seatcovers??) were interesting, though often volatile discussion topics. Many thanks for those last minute photos which I always seemed to be asking for. I hope, for your sake, that there never is a "devil dog" shortage.

Having PEGGY LANTRY on one's staff is undoubtedly a supreme compliment to any publication. Such fine artwork and cartoons are unique and remarkable in their ability to capture the spirit of an age and a place. She consistently surpassed my expectations and never complained about the phenomenal amount of artworks we requested. May Doonesbury live in your heart forever!

JEAN RENDE was our financial backbone. Unfortunately she never revealed to any of us her secret to obtaining those hundreds of dollars in ads.

EILEEN KUCHLEWSKI and TERESA MUSTARO were invaluable aids in just about everything. Both possessed that remarkable, and often too rare quality of 100% reliability.

MR. FLOOD has exhibited an unusual sense of humor throughout. His humor was quite welcome, especially when we needed a release of tensions. Thanks for the many hours of overtime.

To you all, I hope that I have not asked you to compromise too much and that in the end it all really was worthwhile. Sorry if I overdid my anti-white page fanaticism.

Finally both my deepest apologies and thanks are extended to one very special someone who seemed to fall by the wayside because of the excessive demands of this production. Both you and Wisanda taught me the difficult lesson that life is not just getting from here to there - but is also understanding and appreciating the road which connects these two destinations.
